PERFORMANCE COMMENTARY

Stock markets fell for most of October, spooked by economic weakness in the eurozone and China, war in the Middle East, the standoff in Ukraine, street protests in Hong Kong and the spread of Ebola. Investors sought the safety of US government bonds at the expense of riskier assets such as emerging markets equities. The situation changed dramatically shortly before month-end on expectations that interest rates in the US will stay lower for longer and that the ECB will unveil further easing measures. Strong third quarter US GDP growth and the Bank of Japan upping stimulus added to the positive momentum. The US Federal Reserve ended its quantitative easing programme as expected.

The third quarter GDP growth numbers showed the US economy expanding above the expected 3.4%, while China's GDP grew by a disappointing 7.3%, putting in doubt the 7.5% growth target set for 2014. The IMF cut its global growth forecasts to 3.3% for 2014 and to 3.8% for 2015.

Commodities tumbled, driven down by the hawkish stance of the US Fed on the US economy and the underlying weakness in demand from China. The gold price closed below US\$1 200 on the back of a strong US dollar, while Brent crude oil fell to its weakest level since December 2010 at below US\$90 a barrel. It is rumoured that OPEC is resisting pressure to cut oil production to test how low prices must go to make US shale oil unprofitable.

South Africa released a more prudent than expected medium-term budget, with fiscal tightening as the central theme.

On the economic front, the Kagiso manufacturing PMI rose to 50.7 in September but the trade deficit widened to its highest level in seven months, consumer confidence weakened and the leading indicator of economic activity points to subdued growth in the coming months. Consumer inflation came in at 5.9% in September, down from 6.4% in August.

The FTSE/JSE All Share Index ended the month 1.0% up, with the Industrial and Financial sectors delivering 4.0% and 7.0% respectively. The Resources sector on the other hand fell by a massive 9.8%. The BEASSA All Bond Index ended 3.4% up, while the rand strengthened by 2.3% relative to the US dollar.
